CLASS-NURSERY

2025-26

Dear Parents,

As summer vacations are just round the corner, we would like our children to have a nice time and remain constructively busy. We have prepared some fun filled activities for the little ones which will help them to utilize their time productively. We request you to encourage your ward to do these activities on their own under your valuable supervision.

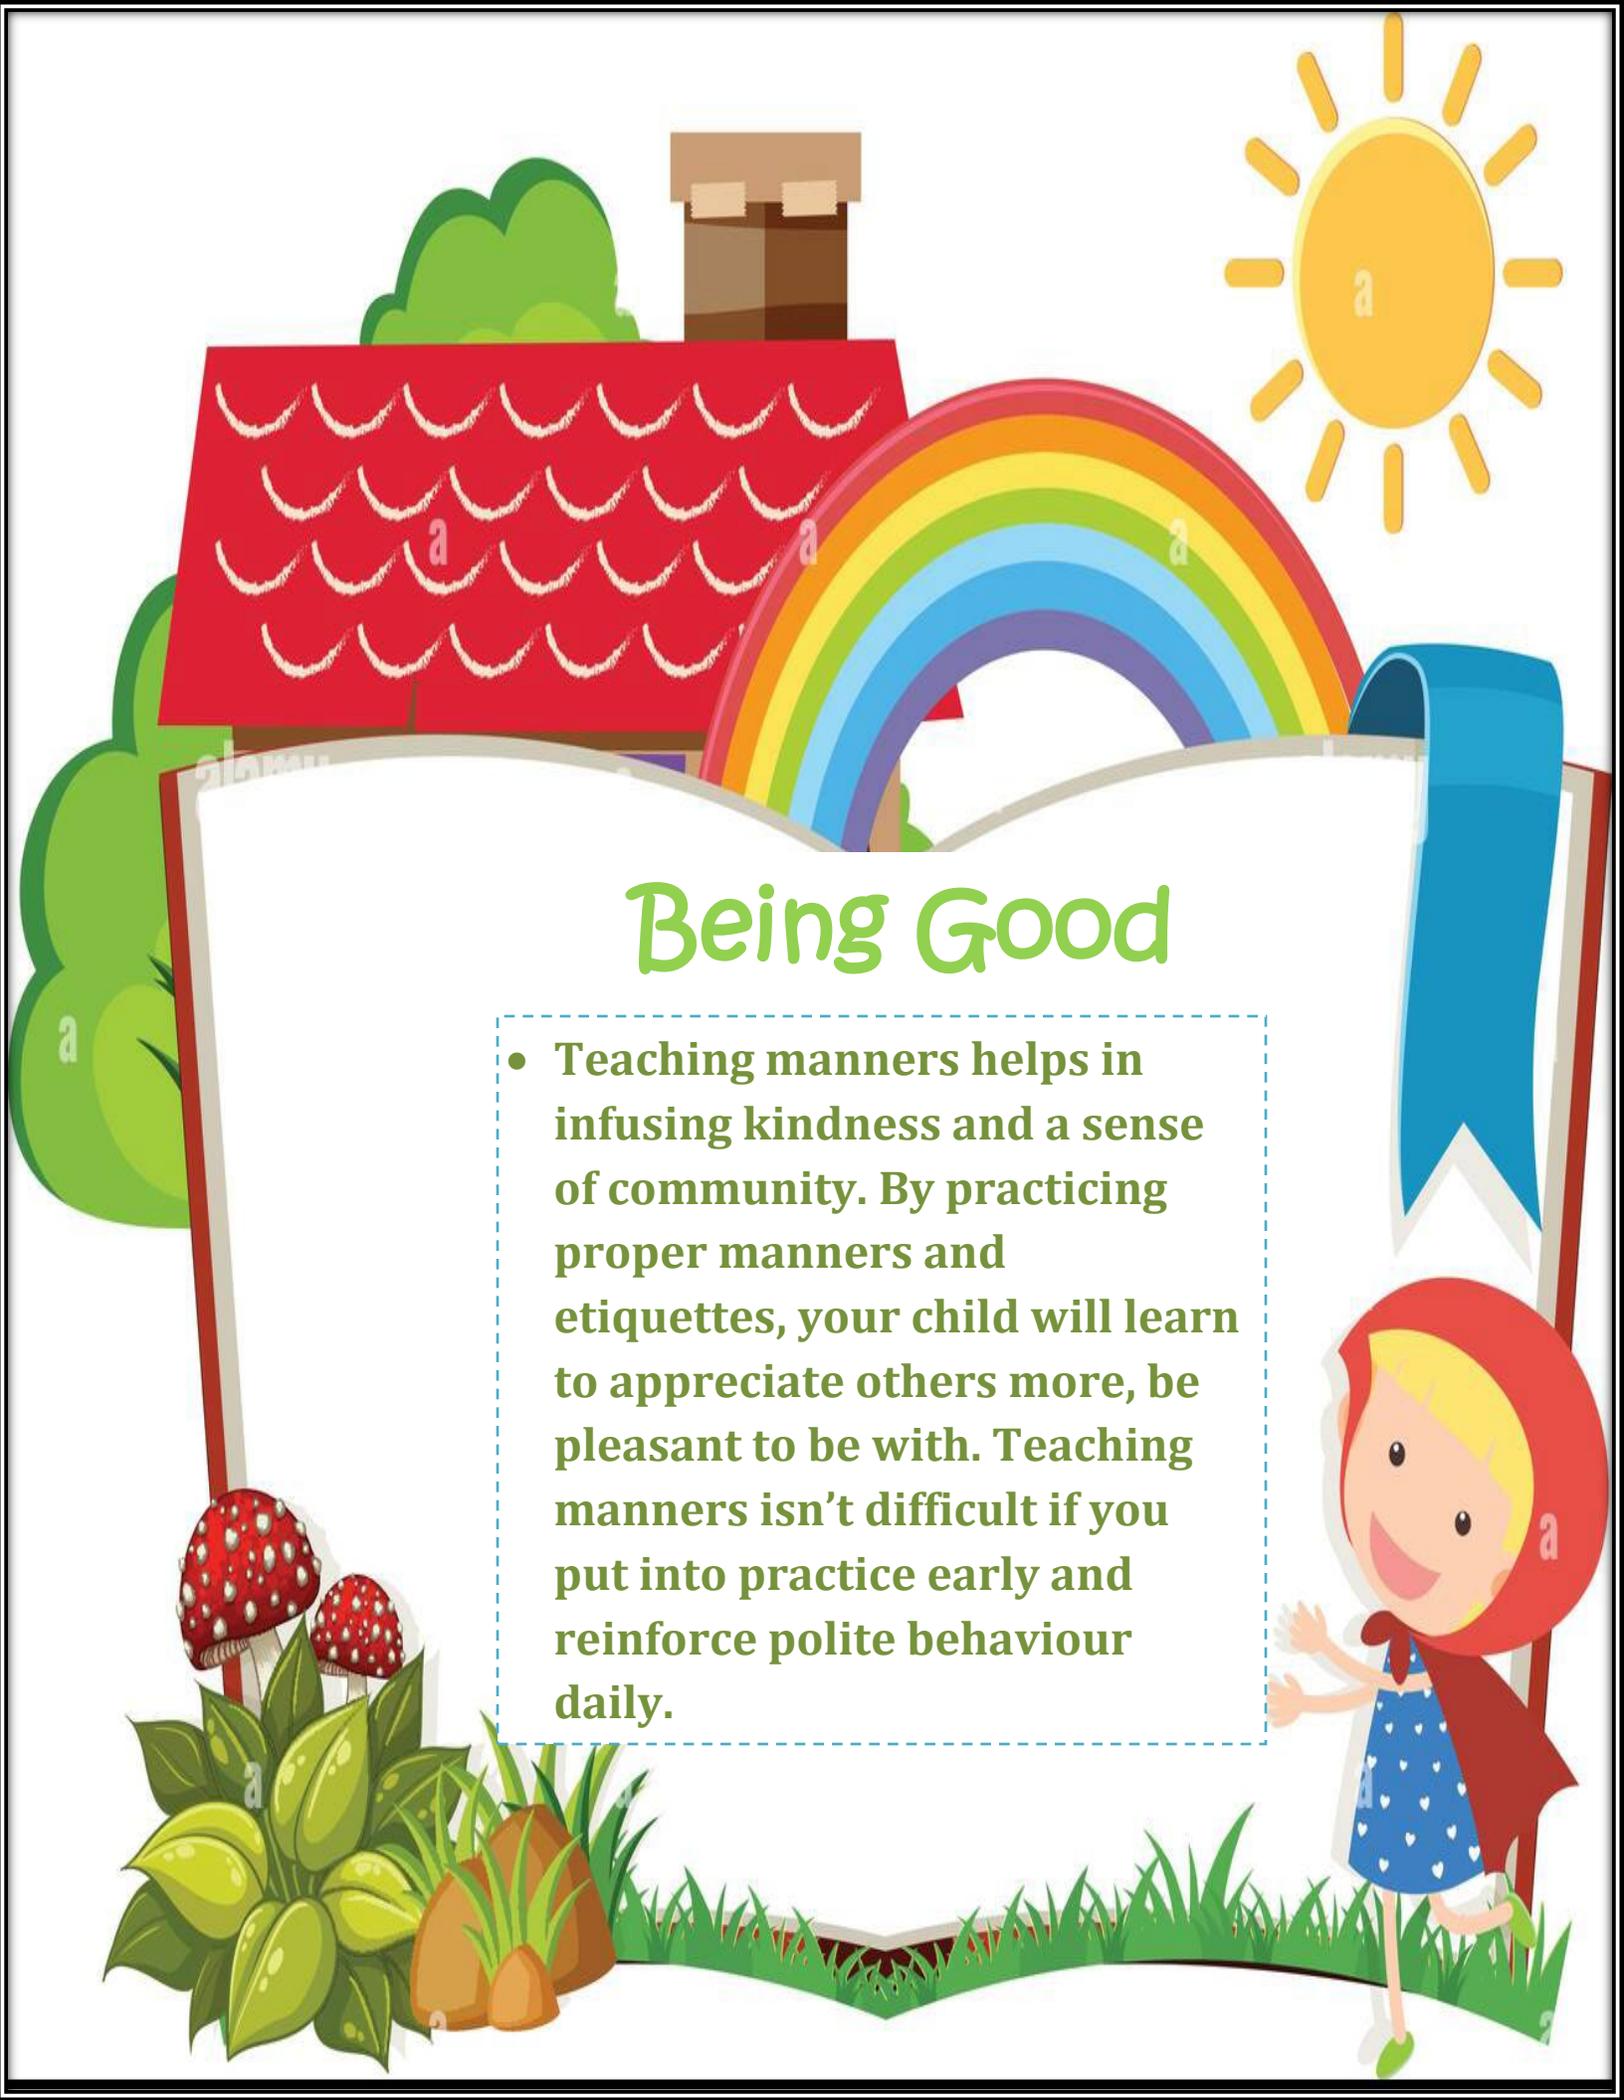

Start Your Day with Yoga

The practice of Yoga for kids is not just meant to provide relief from problems, but also open a whole new way of living and enjoying life. It can also help children cope with anxiety and reduce hyperactivity.

- **Surya Namaskar will help them keep Motivated and Energetic.**

Being Good

- Teaching manners helps in infusing kindness and a sense of community. By practicing proper manners and etiquettes, your child will learn to appreciate others more, be pleasant to be with. Teaching manners isn't difficult if you put into practice early and reinforce polite behaviour daily.

Let's share some tips to make these holidays a fruitful and happy period for them.

Use 4 magical words: PLEASE, SORRY, THANK YOU, EXCUSE ME as the basics of good manners.

Encourage him / her to greet all elders in the morning.

Let them put back their own plates after every meal. Children learn the dignity of labour from such activities.
