Holidays Home Work

Class: III

Session (2025-26)

Dear Children

Greetings

Summer vacations are always exciting and overwhelming. Isn't it so? This is the time to take a break from the set routine, explore new interests, hobbies and reconnect with the loved ones.

During vacation you must engage in activities that stimulate your curiosity, broaden your horizons and expand your knowledge. Read books that ignite your creativity. Challenge yourself to learn something new, push your boundaries- whether it's learning a musical instrument, mastering a new sport or developing artistic skills, this is your time to shine and unlock your full potential.

Take care of your health. Go for a walk every day . Do exercise. Help your parents in household chores. Show that you care for them. Spend quality time with your grandparents. Listen to the beautiful stories of their past. Learn games that they used to play.

Above all, have fun! laugh, play, and enjoy the freedom that comes with this vacation.

A very creative and interesting holidays homework has been assigned to each one of you. Use your creativity to complete the projects given. Use eco friendly material. **USE OF THERMOCOL SHEETS OR PLASTIC SHEETS WILL NOT BE ACCEPTED AT ALL.** These projects will be assessed for internal grades and the best ones will be displayed in the annual exhibition.

Enjoy summer break to the fullest and bounce back to school with renewed energy, enthusiasm and a treasure trove of beautiful memories.

Happy Holidaying!!!

Principal

Some Tips to make holidays specials

Have Lots of Fun

Science Around Us

The "Science Around Us" theme with "Revelation and Reflection" explores the intersection of scientific understanding and spiritual or philosophical perspectives. It encourages reflection on how scientific discoveries, like those about the universe, nature, or ourselves, might offer insights into deeper truths or even divine revelation, and how these scientific findings can enrich our understanding of the world and our place within it. So this year we have planned Holiday's Homework to reveal and reflect the facts of 'SCIENCE AROUND US'.

Types of Rainwater Harvesting

The types of Rainwater Harvesting include:

- **Rooftop Rainwater Harvesting** – Collecting rainwater from rooftops and storing it in tanks or directing it to recharge groundwater.
- **Surface Runoff Harvesting** – Capturing rainwater from surfaces like roads, gardens, and open fields and storing it in reservoirs, ponds, or other storage structures.
- **Check Dams** – Small, man-made dams constructed across streams or rivers to slow down water flow and increase groundwater recharge.
- **Recharge Pits** – Excavated pits filled with porous materials like gravel or sand, allowing rainwater to percolate into the groundwater table.
- **Percolation Tanks** – Large, shallow tanks designed to store runoff water, which slowly infiltrates the soil and recharges groundwater.

Science

All the gears on course
I get the parts at the source
High-speed motors so expensive
Those circuits so comprehensive

I gathered all the parts
There is no time to play darts
I have to get good grades
Or my life dream fades

I don't want to be a magician
My dream is to be a technician
One that works with electricity
without all of the simplicity
